

How to create a Tambour Door Panel

 cadimage.zendesk.com/hc/en-us/articles/205264283-How-to-create-a-Tambour-Door-Panel

To configure the door panels of your cabinet:

1. Open the Cadimage Cabinet **settings** dialogue
2. Choose **Cabinet > Setout**
3. **Select the desired Section**
4. **Choose the Tambour Component**
5. Go to **Doors & Drawers > Tambour Doors** to modify the settings:
