

Choose the Face Mounting type for Doors and Drawers

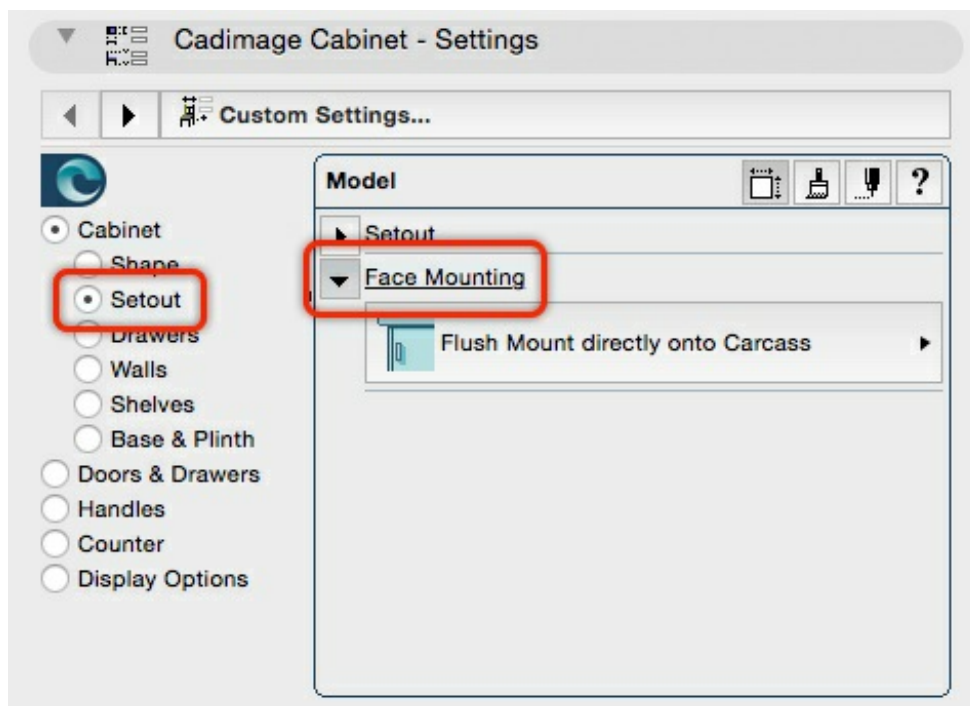

cadimage.zendesk.com/hc/en-us/articles/204957686-Choose-the-Face-Mounting-type-for-Doors-and-Drawers

When you build a Cadimage Cabinet, you have four options to mount the doors or drawers on the carcass. The four options are illustrated below:

To view and set your preferred option, go to:

1. Cabinet > Setout > Face Mounting:

2. Click the flyout button

3. You should see the following list of options:

TIP: If you choose either '**Flush Mount**' or '**Surface Mount onto Face Frame**', you may notice a new option is added to your menu (shown below). The **Face Frame** option allows you to control the Face Frame attributes:
